9:00 pm	3.71	21.42		\$25.13
Totals	\$94.40	\$500.18	\$201.10	\$795.68

Where Can You Use the Dashboard?

The Dashboard Client software lets you see restaurant financial details stored on the cloud server. The Dashboard client software is available for these platforms:

- Windows desktop, laptop or Surface Pro tablet (Windows 10 or above required)
- Mac desktop or notebook
- iPhone and iPad (iOS version 9 or above recommended)

Customize and Personalize

- Dashboard works with one restaurant location or for many locations.
- Design user accounts to show just the information needed by or permitted to be seen by each user.
- Set up dashboards for store managers, regional managers or owners and control the information and locations accessible to them.
- Customize reports to view from the list of labor, sales, order, and historic data reports.

Cloud Data

Data is synchronized every ten minutes between Point of Success POS software at each restaurant location and the cloud server, keeping your dashboard current.

- Notifications in the Dashboard tell you if a location has missed a sync window.
- Requires an always-on internet connection at each location.
