

Time Clock

Time Keeping

Point of Success Employee Timekeeping is an add-on product designed to work exclusively with Point of Success POS software.

- Employees clock in and clock out on any network workstation.
- Supervisors can easily fix incorrect or forgotten time clock entries.
- Payroll preparation is simpler with clear, concise time reports.
- Works with existing Point of Success staff files, simplifying setup.

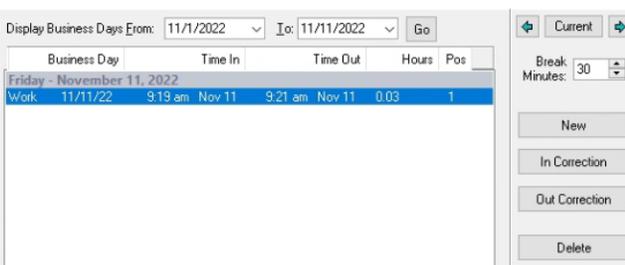

Cash Tip Tracking

Optionally ask employees to enter cash tips when they clock out.

Multiple Position and Pay Rates

If an employee is set up to work in several positions, the Employee Timekeeping module can ask which position they are working when the employee clocks in.

Time Clock Management

- Time clock errors can occur frequently in a busy restaurant.
- A missed clock in or clock out record is corrected in this easy-to-navigate window.
- Employee Timekeeping prints reports to assist with payroll production.
- Time reports list employees who worked during the pay period and their hours.
